

BILDERBERG GROUP

paul@infocan rs

Ladies and gentlemen, we are now in a position to change history. I finally believe that mankind has a future. A once demoralised population with no moral purpose is coming out of their prolonged slumber. In this general awakening, people are beginning to ask the right questions. It's no longer, "what will I get out of it?" but rather "What's right?" It's an international phenomenon of response and reaction to an overly felt perception that the entire world is doomed to catastrophe, unless we the people do something about it

I have written a book on the subject of the Bilderberg Group. This book, in a way, has become the catalyst for a movement around the world. Now, we don't have a lot of time, so I would like to explain to you what Bilderberg is and why it must be stopped.

In the world of international finance, there are those who steer the events and those who react to the events. While the latter are better known, greater in numbers, and seemingly more powerful, the true power rests with the former. At the centre of the global financial system are the financial oligarchy today represented by the Bilderberg group.

Bilderberg organization is dynamic, in that it changes with the times, absorbs and creates new parts while excreting the remains of the decaying parts. Members come and go, but the system itself has not changed. It is a self-perpetuating system, a virtual spider web of interlocked financial, political, economic and industry interests.

Now, Bilderberg isn't a secret society. It is not an evil, all-seeing eye. There is no conspiracy even though a lot of people with their infantile fantasies see it as such. No group of people, and I don't care how powerful they are, sit around the table in dark room, holding hands, staring at a crystal ball, planning the world's future.

It's a meeting of people who represent a certain ideology.

Not OWG or NWO as too many people mistakenly believe. Rather, the ideology is of a **ONE WORLD COMPANY LIMITED**. Back in 1968, at a Bilderberg meeting in Canada, George Ball, the then Under-secretary for Economic Affairs with JFK and Johnson said: "Where does one find a legitimate base for the power of corporate management to make decisions that can profoundly affect the economic life of nations to whose governments they have only limited responsibility?"

The idea behind each and every Bilderberg meeting is to create what they themselves call **THE ARISTOCRACY OF PURPOSE** between European and North American elites on the best way to manage the planet. In other words, the creation of a global network of giant cartels, more powerful than any nation on Earth, destined to control the necessities of life of the rest of humanity, obviously from their vantage point, for our own good and in our benefit – **THE GREAT UNWASHED AS THEY CALL US**.

Now, the reason people don't believe in Bilderberg and other organisations working together exercising such control on the world stage is that theirs is a Cartesian fantasy world, in which the isolated intentions of some individuals, **NOT** the dynamics of social processes shape the course of history as the movement of evolving ideas and themes over successive generations and even centuries.

Bilderberg 2019

Bilderberg is a medium of bringing together financial institutions which are the world's most powerful and most predatory financial interests. And at this time, it is that combination which is the worst enemy of humanity.

We can all congratulate ourselves in that today, Bilderberg has become the mainstay of corporate media. Not because corporate media has suddenly remembered their responsibility to us, but because we the people, have forced them into this uncomfortable position by becoming very aware that Presidents and Prime Ministers and your little shrinking Queens and Kings are puppets of powerful forces working from behind the scenes.

Something has happened to us, the people in the midst of this general economic collapse. People at large are gripped by something they don't always understand. But, it compels them to act in a certain way, in their own interest. That's what they are doing in Greece. That's what they are doing in Spain, in the United States. It's called the anthropic principle. It's like a tidal movement came upon us and washed our fears away. As people realise that their existence is threatened, they have lost their fear, and Bilderberg and others sense it.

Perhaps that's why at a recent Council on Foreign Relations speech in Montreal, Zbigniew Brzezinski, one of the founders of the TC, warned that a "global political awakening," in combination with infighting amongst the elite, was threatening to derail the move towards a one world government.

You see people at **this** table come from very different ideological and political backgrounds. What unites us, however, is that we are all patriots. And those who oppose us, those who work for secret societies, who have sold their nations out for a pound of flesh, are traitors. Not only traitors of their people and nations, but of humanity as a whole.

Now, the subject of this Press Conference is Bilderberg: Towards One World Company Ltd.

About six and a half centuries ago, the economy of Europe had collapsed into what is known as Europe's "New Dark Age," the greatest economic and demographic collapse of Europe since the collapse of the Roman Empire. Then, in the middle of the 14C, much of the power of the oligarchy abruptly disintegrated. This disintegration erupted as the sudden, chain-reaction collapse of the worst financial bubble of debt speculation in history, **until now, that is**, when the banking houses of Bardi and Peruzzi went under. This disintegration and collapse of the Lombard debt bubble caused a collapse in the power among the oligarchical families.

What does it have to do with Bilderberg?

Modern history superseded medieval history at that moment that the institutions which singularly distinguish modern from medieval history were put into place. That occurred back in 1439 at the Council of Florence. What were those new institutions?

- 1) The conception of the modern nation state republics under the government of natural law.

- 2) The central role of the fostering of scientific and technological progress as the mandate given to the republic.

These two ideals represent a crucial argument: their existence as institution, in any part of Europe, changed everything in all of Europe because these institutional changes increased the rate of development of per-capita and per-square kilometre of mankind over nature. So, no nation could afford not to progress, not to develop for the fear of being left hopelessly behind.

The first success occurred under France's Louis XI, who doubled the per-capita income of France, and defeated all of France's enemies. Louis XI success sparked a chain reaction of efforts to establish a nation-state on this model in Henry VII's England and elsewhere.

Another key idea to come out of Council of Florence which was later implemented in the United States is a universal principle of GENERAL WELFARE, on which all modern civilised society is based.

Now, welfare does not mean a useless bum sitting on the couch, eating a pizza, slobbering all over himself, watching television, while he is waiting for an unemployment check to arrive.

It is a question of immortality. What's the intention of the existence of man, and government? It's to provide for the welfare, of future generations of mankind. To assure our survival as the species. The principle of the General Welfare, as expressed in summation in the preamble of the Federal Constitution of the United States, is the fundamental law.

So, how is it related to today? These people want an Empire. That's what globalization is. And too many people believe that in order to have an Empire, you need money. You have all heard of the phrase – THE MONEY ELITE. But money, is not a determinant of wealth and the economy. Money does not make the world go around. Money has no intrinsic value.

Human mind affects the development of the planet. This is how mankind is measured. This is the true meaning of IMMORTALITY. What separates us from animals is our ability to discover universal physical principles. It allows us to innovate, which subsequently improves the lives of people by increasing the power of man over nature.

You see, they are destroying the world economy on purpose. This isn't the first time either. This was done in the 14th century New Dark Age: 30% of the population wiped out.

Empire=dumb people down. They want to destroy the creative powers of reason. 0 growth, 0 progress. Club of Rome (Limits to Growth) 1973
PROJECT 1980S CFR, promoting controlled disintegration of the world economy.
BILDERBERG 1995. Demand destruction. How? By destroying the world economy on purpose.

GREAT DEPRESSION – TRANSFER OF WEALTH. The Great Depression was not an event that wiped out U.S. capitalists. It was an event that made the rich even richer by transferring the wealth of the people into the hands of the already wealthy. That's how Bank of America made their billions through real estate foreclosures from 1929-37. Don't believe for a minute that the richest of the rich will be hurt by the coming collapse. The only ones hurt will be you and me.

Look at Greece. What they are trying to do is blow up the system by, instead of allowing Greece to reorganise its money system, they are imposing that Greece be used, that the Greek debt be bailed out by Europe. But, that debt is worthless. It's garbage, it's monopoly money. So, asking Europe, which is going through its own financial meltdown, to absorb an unpayable debt, which the Greeks, by the way, can NEVER repay, means you are going to FOR SURE, destroy Europe. And, it is being done on purpose, because nobody, not even Barroso, who with all due respect to him is absolutely intellectually challenged or Trichet are that stupid.

Let's get rid of the bureaucracy in Brussels. Let's fire them all. They are bums. They are useless. These people have never done anything useful in their lives. Get rid of Barroso. He failed history in high school. Get rid of the "wet rag," Van Rompuy not because he is useless but because he is evil and very dangerous. It's not the first time that an unloved, short, evil little man has gnawed his way into the bowels of power.

You see, it is a question of leadership and a question of immortality. All of the leaders of society, especially in times of crisis, are leaders because they measure up to some approximation of that standard. People such as Barroso, Van Rompuy, EU President Jean Claude Juncker, Dominique Strauss-Kahn, the managing director of the IMF can hardly be considered leaders. In fact, they can hardly be considered humans, from the perspective of human representing A GREATER GOOD OF HUMANITY.

Now, what I am talking about is not a scientific problem or economic question, but rather a morality question. A question of immortality. Do we as nation states, as people of the Planet believe in the future of mankind? And what kind of future will we have 100 or 200 years in the future. What about 10,000 years from now? Do we have a right to dream? If we have a sense of purpose for being here, then the bad guys can't win.

For example, we have been told that euro must be saved. That euro's failure will bring down the European Union. That's a lie. Instead of a weak, dysfunctional European monetary union, we go back to being independent nation state republics – Europe of the Fatherlands.

Cultural diversity is not only humanity's hallmark of progress, but an insurance policy against extinction as a species. Once born, a nation state concept never dies; it only waits for courageous and sane human beings to come to its defence, to perfect the concept. So therefore, we should be a fraternity of nations, of sovereign nations—*united by a common purpose for humanity*. Until we can bring mankind into the Age of Reason, history will be shaped in actuality, not by the wills of masses of humanity, but by the mere handfuls who, for purposes of good or evil, steer the fate of mankind generally as herds of cows are steered to and from the pasture—and, occasionally, also to the slaughter-house.

Daniel Estulin

Daniel Estulin is an investigative journalist. Russian by birth, has lived in Canada and Spain. Since fifteen years he follows the meetings of the Bilderberg Club around the world, collecting material, taking photos and stealing valuable information on the contents of the meeting.

His first book **The Club Bilderberg - The Secret History of the masters of the world**, published in Italy by Arianna Editrice, had an extraordinary success, has been translated into fifty languages and seventy countries. The Spanish edition, the first to be published, sold 155,000 copies in thirteen reprints. In Canada, the book won the award for "Book of the Year, established by the prestigious independent periodical The Kingston Eye Opener.

The Bilderberg Club is a meeting held yearly in a always different place, mostly small provincial towns, where the Bilderbergers can be found quiet, away from prying eyes. Strictly by invitation, access to the Club is permitted to international eminent in their fields of expertise: politicians, economists, scientists, journalists, soldiers, entrepreneurs are the elite that each year gives life to the Bilderberg Club meetings. **Their purpose?** Analyze the events and affairs and develop strategies to direct, influence, and advise them along the lines decided by the club.

Despite the essential importance, however, it is almost impossible to become aware of what is discussed and resolved during these meetings. The staff that is working is rigorously selected, the security consisting of police and private security is very strict and, above all, the media does not affect it. This is not obviously for negligence or incompetence, but under the clear desire of the organizers to maintain the utmost discretion.

Despite these impressive measures, Estulin has collected over the years a considerable amount of documents, many of them coming directly from the control room of Bilderberg.

Photographs of participants, list of invitees with names, job titles and letters of invitation, press releases, reports and minutes of discussions and clippings of newspaper articles, which are often published in order to minimize and distort the news and then the extent of event. All this constitutes a rich appendix of The Bilderberg Club, a hundred pages of data and incontrovertible evidence of how this obscure lobby is a fanciful invention, but the pure, haunting reality.

In the text of the book, besides telling his adventure stories investigative, Estulin makes a complete and clear picture of the situation. He reconstructs the history of this powerful and secret apparatus - from organizations belonging to the Rockefeller family, the first official meeting of the Club, held at the Bilderberg Hotel in Oosterbeek, Holland, to the last meeting of 2009 held in Greece - , highlights the links that bind him to other institutions like the Council for Foreign Relations and the Trilateral Commission, to holding companies, banks, newspapers and television, multinational corporations, all forming an intricate and efficient power network; notes punctuality correspondence between the decisions will be based on the group and their impact on political, economic, social and military world. Finally, appeals and provides the information needed to combat this organization, forcing its members to come forward and take action so that the fate of the world could be back in the hands of the people and their representatives and not those of obscure individuals pursuing secretly own purposes.

Bilderberg Expert Daniel Estulin

Daniel Estulin (born in Russia) is an author, public speaker, investigative journalist and author of conspiracy books about the Bilderberg Group, an annual invitation-only conference of the elites in the fields of business, finance, media, military and politics. He is known for his extensive works on this group having written a book called "The True Story of the Bilderberg Group" as well as for his live seminars throughout the world.

In an interview, Estulin describes his background, which led him to his profession:

"I'm a Russian expatriate who was kicked out of the Soviet Union in 1980. My father was a dissident who fought for freedom of speech who was jailed, tortured by the KGB. Suffered two political deaths. When these people got tired of us they threw us out. We moved to Canada and 12 years ago I came to Spain. My grandfather was a colonel in the KGB and the counter-intelligence in the 1950s, so I am privileged somewhat to get a lot of the information from secret service which are our best sources of information. Not only the KGB people but the MI6 people, the CIA because most of the people who work for the secret service as you probably know are patriots and they love their country and they're doing it for the good of the nation and they're the first ones absolutely terrified of the plans of the Bilderbergers".

Estulin wrote *The True Story of the Bilderberg Group* (original title: *La Verdadera Historia Del Club Bilderberg*), purportedly a report on the nature and meetings of the world's most powerful people. According to Estulin's book, the secretive Bilderbergers have been making major important political, economical and social decisions since their first gathering in 1954.

Commenting on an episode in this book, Bruce Ramsey wrote "The method here is to initiate the reader into a special group of in-the-know; of mixing facts with assertions so that the casual reader won't tell them apart, and to draw lines between A and B, when A is the person you want to impeach and B is a known wickedness."

Estulin published a second book, *Los secretos del club Bilderberg*, released in September 2006. The English version, *The Secrets of the Bilderberg Club*, was released in the US on September 22, 2007.

In December 2007, Estulin appeared on the Alex Jones Show, and claimed that he had "received information from sources inside the U.S. intelligence community which suggests that people from the highest levels of the U.S. government are considering an assassination attempt against Congressman Ron Paul because they are threatened by his burgeoning popularity" as a presidential candidate. Estulin has worked with American journalist Big Jim Tucker who has a similar interest in the activities of the Bilderberg Group.

The author of *The True Story of the Bilderberg Group* has been infiltrating their mysterious meetings for a number of years and uncovering their plans. For instance, in 2005 he predicted that oil would hit \$150 a barrel – it hit \$147. In 2006 he predicted the crash of the US economy, a truth that we all know so well. In 2008 he announced that the Bilderbergs had decided that Obama would win the race for president. What will he find out *this* year?

His expose of the group has helped the book sell almost five million copies in 79 countries and 49 languages. Now he has a new book out, *Shadow Masters*, that picks up where the Bilderberg book left off. His research goes even farther, covering the real reasons for our military presence in Afghanistan and Iraq, the international drug trade, and of course, the ongoing machinations of the Bilderbergs.

The annual meeting is happening in Sitges, Spain, from June 3-6 this year, right in Estulin's backyard! He will be sure to be there, welcome or not, but first he will give an unprecedented talk at the European Parliament in Brussels. His historic speech will be about – who else? – the Bilderbergs.

1. In 1996, after Bilderberg had met in Canada, Estulin said that war with Yugoslavia over Kosovo would take place in 1999. World's leading intelligence journal, *Jane's Intelligence Review* did not come to the same conclusion until half way through 1998.
2. In 2002 during their meeting at Chantilly, Estulin correctly predicted Iraq war for February-March 2003. At the time, every media outlet in the US was screaming war for September 2002.
3. In 2002 Estulin said that oil would go to \$100/barrel by end 2007. He was off by two days. It hit \$100 by January 2, 2008.
4. In 2005, Estulin said that oil would hit \$150 by summer 2008. It hit \$147.5/barrel
5. In 2005, Estulin said gold will hit \$1000 in 2007. At the time it was hovering around \$300-350/oz
6. In 2006, Estulin predicted that US economy was about to crash, just as the rest of Europe. He said that Spanish housing market would suffer a 50% decline within a year, and was right on the money.
7. In 2007, Estulin predicted that once oil hit \$150 it would plummet to about \$30/barrel. All part of an economic warfare against Russia and China
8. In 2008, Estulin announced that Obama and Hillary attended Bilderberg meeting in Chantilly and that US Bilderbergers told Obama that the presidency was his to lose. They also told Hillary to stay out of his way.

The True Story of the Bilderberg Group

How do you get from here to there? Sometimes, you must first find out where you are. This book gives us true understanding of the nature of the corruption we must deal with as we strive for a better, a more honest, a more open, real and caring tomorrow.

Initially written to inform a European audience, the first English edition was published with a stateside audience in mind, but the volume lacked information about the hidden “international planning” directly affecting Americans. This new edition contains revealing details concerning the covert and overt machinations silently propelling us towards a North American Union. An insidious idea proposing to do away with our sovereignty for the sake of economic efficiency, expanded horizons and state security.

Author Daniel Estulin saw it happen in Europe, where flags, currencies and constitutions fell by the wayside with the creation of the European Union, all in the name of peace, progress, and prosperity. Similar to the promises given at the creation of the Federal Reserve — that it would control disastrous economic swings — time has shown these pledges are simply smokescreens, moving decisions and oversight farther away from citizens and into the hands of technocrats, bureaucrats and oligarchal forces such as the Bilderberg Group.

TrineDay brought Daniel to the United States twice to promote his book, and to talk with the people and the press. I watched and listened in the fall of 2007 as he told everyone about the upcoming financial turmoil and housing mess, how many folks would soon owe more than their homes were worth, and then in the spring of 2008, when he told audiences that we were just a few months from economic calamity. The people responded, they bought books, asked questions and wanted to know more, but the press was a no-show. Then the same press also “failed” to report the year’s largest gathering of elites: the royalty, bankers, CEOs, media big-wigs and high government officials at the 57th annual Bilderberg meeting in June 2008.

But at the end of the day it is not about them, it is about us — we the people. Much has been written about what is to be, but the dark of night brings within it the salvation of sunshine. Ardent actions and new understandings do create fresh possibilities, and hope — for our world, our children ... ourselves.

from: *The True Story of the Bilderberg Group* (Paperback)

Sir K. Popper has always stressed that general conspiracy- and complot theories were pure imaginations of bogus historians and paralyzed politicians. He also stated that the only justification for taking up arms was to defend democracy.

Well, in this book Daniel Estulin unveils without any doubt the existence of an extremely serious secret cabal, for whom the democratic political process must be rejected.

Who

The trinity of the Bilderberg Group and its also discrete sister organizations, the Council on Foreign Relations and the Trilateral Commission have a hidden reactionary global agenda.

Goal

Their ultimate aim is to create a New World Order, one world with one world government which should rule over a single marketplace.

As their most powerful advocate said: 'The supranational sovereignty of an intellectual elite and of world bankers is surely preferable to national auto determination. I am proud of conspiring to build a more global political and economic structure: one world.'

Why

They want to safeguard international trade from protectionism and nationalism and so bring more private gain for the world's vested powerful and wealthy top. The promotion of industrial concentration is used for suppressing unwarranted competition.

How

They try to control as much as possible the judicial, educational, information (press, TV, internet, publishing), banking and credit, military and intelligence systems, and, if possible, the mind of everybody (except their own). Nearly all people who occupy crucial positions in important branches of political, economic, legislative, military, intelligence, social and cultural organizations are members of the groups.

More specifically, they control the US presidency and the US government, the IMF, the World Bank, the WTO, all important newspapers and TV channels. They use NATO as their military arm. They try to create world elite with even Chinese and Russian members.

Ultimate picture

Their aim is to create a monolithic one world empire where national identities are destroyed; a world with only rulers (owners) and servants (slaves); a world without social welfare, without spiritual; political and economic freedom (no individual free enterprise). Obedient slaves will be rewarded, but opponents exterminated.

Defense

The ruling oligarchs are afraid of public revolt. They try to instill political apathy in the majority of the population. The revolt should not necessary be violent. The majority can still collectively say NO as long as the elections are democratic and free.

Daniel Estulin wrote a mightily important book. It is a must read for all those who want to understand (and influence) the world se live in.
